

70MA MOBILE X-RAY APPARATUS TR70A

Feature:

This X-ray apparatus features full wave rectification and modular X-ray tube head. The frame of the unit of cantilever construction, is compact in design easy of movement. The machine can be used for radiography in hospital wards or operating rooms.

Power requirement:

Voltage: 180-240V

Frequency: 50Hz

Internal resistance: $\leq 1\Omega$

Current: maximum 22A for radiography

Time: 0.1 to 6.2s, 20 steps electronic

Maximum height from X-ray tube focus to floor >1820mm

Minimum height from X-ray tube focus to floor >550mm

Collimator: maximum film size at 1000mm

Focal distance: 430x430mm

Maximum remote control distance: 7M

X-ray tube focus: 2.6x2.6

Unit moving force: <5kg

Net weight of the unit: 90kg
